## MODE OF APPLAING FOR A PATENT.

Every inventor before he presents his petition to the Secretary of State, signifying his desire of obtaining a patent, shall pay into the treasury of the United States thirty dollars, for which he shall be furnished with duplicate receipts, one of which he shall deliver to the Secretary of State, when he presents his petition; and the money thus paid shall be in full for the sundry services to be performed in the office of the Secretary of State, consequent to such petition. This petition must be addressed to the Secretary of State, and may be in the following, or in a similar style:

## TO THE HON. UNITED STATES: -SECRETARY OF STATE OF THE

The Petition of A. B. of \_\_\_\_\_\_, in the county of \_\_\_\_\_\_, and State of ---- respectfully represents:

That your petitioner has invented a new and useful improvement [" or art, machine, manufacture or composition of matter, or any new and us: ful improvement in any art, machine, manufacture, or composition of matter] in not known or used before his application," the advantages of which he is desirous of securing to himself and his legal representatives, he therefore prays that letters Patent of the United States may be issued, granting unto your petitioner, his heirs, administrators or assigns, the full and exclusive right of making, constructing, using and vending to others to be used, his said improvement, (art, invention, machine, manufacture or composition of matter, &c.) agreeably to the act of Congress in such case made and provided; your petitioner having paid thirty dollars into the treasury of the United States, and complied with other provisions of the said acts.

The specification or description of the machine, art, discovery, or invention, must be given in clear and specific terms, designating it from all other inventions, and describing the whole in such a manner, as to comprehend not only the form and construction, (if a machine) but also the mode of using the same; and if it be only an improvement on a certain machine already invented by the applicant or any other, it ought to be so mentioned or described; and as this specification, description or schedule, enters into, and forms part of the patent, it must be without any references to a model or drawing, and must be signed by the applicant or applicants, before two witnesses. It is material that this be in good language, and correctly written, as it is transcribed into the patent, and the original papers will be deposited in an office, that will hand them down to posterity; by which the honour of the country is concerned in this attention. The modest inventor will no doubt, exclude those panegyrics on the excellence of his invention or discovery, which abound sometimes in the productions of the inferior genius, but which ought not to enter into the patent.

The following, or a similar oath or affirmation, taken [before a judge of any of the courts, or a justice of the peace, or any person qualified to administer an oath] by the applicant or applicants, must be subjoined to the specification, if citizens of the United States.

Peace, in and for the said county, personally appeared the aforenamed A. B. and made solemn oath [or affirmation] according to law, that he verily believes himself to be the true and original inventor or discoverer of the art, [machine, and that he is a citizen of the United States. Just. Peace

If not a citizen (or citizens) the following addition must be made to the dec'aration, "that he verily believes himself to be the true and original inventor or discoverer of the art, &c. And that the same hath not, to the best of his or " her knowledge, or belief, been known or used, either in this or any foreign country

" Also, that he (or she ) hath resided in the United States for two "years and upwards."

It is not necessary that the time of residence should immediately precede

the application.

If any inventor or discoverer should die intestate before an application be made for a patent, his legal representatives may apply for the patent, in trust

for the heirs at law; otherwise in trust for the devisees.

The specification must be accompanied by a good drawing, in perspective, of the whole machine or apparatus, "where the nature of the case admits of drawings, or with specimens of the ingredients, and of the composition of matter, sufficient in quantity for the purpose of experiment, where the invention is of a composition of matter." "and such inventor shall, moreover, deliver a model of his machine, provided the Secretary shall deem such model to be necessary." It is requisite, in giving a drawing of the machine, to give also sectional drawings of the interior, when the machine is complex; and every drawing should be accompanied with explanatory references. If the machine be complex, a model will likewise be necessary, not only to explain and render it comprehensible to a common capacity, but also to prevent infringements of rights; for many will plead ignorance of drawings, who cannot avoid conviction by wheels and pinions.

The drawings ought not to exceed a quarto size, and if confined to octave, they would be still better, where it can be done conveniently and distinctly.

An Act for the Encouragement of Learning, by securing the Copies of Maps, Charts and Books, to the Authors and Proprietors of such

Copies, during the times therein mentioned."

Sucr. 1. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the passing of this act, the author and authors of any map, chart, book or books already printed within these United States, being a citizen or citizens thereof, or resident within the same, his or their executors, administrators or assigns, who hath or have not transferred to any other person the copy-right of such map, chart, book or books, share or shares thereof; and any other person or persons, being a citizen or citizens of these United States, or residents therein, his or their executors, administrators or assigns, who hath or have purchased or legally acquired the copy-right of any such map, chart, book or books, in order to print, reprint, publish or vend the same, shall have the sole right and liberty of printing, reprinting, publishing and vending such map, chart, book or books, for the term of fourteen years from the recording the title thereof in the clerk's office, as is hereafter directed: And that the author and anthors of any map, chart, book or books already made and composed, and not printed or published, or that shall hereafter be made and composed, being a citizen or citizens of these United States, or resident therein, and his or their executors, administrators or assigns, shall have the sole right and liberty of printing, reprinting, publishing and vending such map, chart, book or books, for the like term of fourteen years from the time of recording the title thereof in the clerk's office as aforesaid. And if, at the expiration of said term, the author or authors, or any of them, be living, and a citizen or citizens of these United States, or resident therein, the same exclusive right shall be continued to him or them, his or their executors, administrators or assigns, for the further term of fourteen years: Provided, he or they shall cause the title thereof to be a second time recorded and published in the same manner as is herein after directed, and that within six months before the expiration of the first term of fourteen years aforesaid.

BET. 2. And be it further enacted, That if any other person or persons, from and after the recording the title of any map, chart, book or books, and publishing the same as aforesaid, and within the times limited and granted by this act, shall print, reprint, publish or import, or cause to be printed, reprinted, published, or imported from any foreign kingdom or state, any copy or copies of such map, chart, book or books, without the consent of the author or proprietor thereof, first had and obtained in writing, signed in the presence of two or more creditable witnesses; or knowing the same to be so printed, reprinted, or imported, shall publish, sell or expose to sale, or cause to be published, sold,

or exposed to sale, any copy of such map, chart, book or books, without such consent first had and obtained in writing as aforesaid, then such offender or offenders shall forfeit all and every copy and copies of such map, chart, book or books, and all and every sheet and sheets, being part of the same, or either of them, to the author or proprietor of such map, chart, book or books, who shall forthwith destroy the same: And every such offender or offenders shall also forfeit and pay the sum of firty cents for every sheet which shall be found in his or their possession, either printed or printing, published, imported or exposed to sale, contrary to the true intent and meaning of this act, the one moiety thereof to the author or proprietor of such map, chart, book or books, who shall sue for the same, and the other moiety thereof, to and for the use of the United States, to be recovered by action of debt in any court of record in the United States, wherein the same is cognizable. *Provided always*, That such action be commenced within one year after the cause of action shall arise, and not afterwards.

Secr. 3. And be it further enacted, That no person shall be entitled to the benefit of this act, in cases where any map, chart, hook or books, hath or have been already printed or published, unless he shall first deposit, and in all other cases, unless he shall before publication deposit a printed copy of the title of such map, chart, book or books, in the clerks office of the district court where the author or proprietor shall reside: And the clerk of such court is hereby directed and required to record the same forewith, in a book to be kept by him for that purpose, in the words following, (giving a copy thereof to the said author or proprietor, under the seal of the court, if he shall require the same.)

"District of to wit: Be it remembered, I hat on the

day of in the year of the independence of the United States of America, A. B. of the said district, hath deposited in this office the title of a map, chart, book or books, (as the case may be) the right whereof he claims as author or proprietor, (as the case may be) in the words following, to wit: [here insert the title] in conformity to the act of the Congress of the United States, intituled, "An act for the encouragement of learning, by securing the copies of maps, charts, and books, to the authors and proprietors of such copies, during the times therein mentioned." C. D. clerk of the district of

." For which the said clerk shall be entitled to receive sixty cents from the said author or proprietor, and sixty cents for every copy under seal actually given to such author or proprietor as aforesaid. And such author or proprietor shall, within two months from the date thereof, cause a copy of the said record to be published in one or more of the newspapers printed in the United States,

for the space of four weeks.

Secr. 4. And be it further enacted, That the author or proprietor of any such map, chart, book or books, shall, within six months after the publishing thereof, deliver, or cause to be delivered to the Secretary of State a copy of the same, to

be preserved in his office.

SECT. 5. And be it further enacted, That nothing in this act shall be construed to extend to prohibit the importation or vending, reprinting or publishing within the United States, of any map, chart, book or books, written, printed, or published by any person not a citizen of the United States, in foreign parts or places

without the jurisdiction of the United States.

or publish any manuscript, without the consent and approbation of the author or proprietor thereof, first had and obtained as aforesaid, (if such author or proprietor be a citizen of, or resident in these United States,) shall be liable to suffer and pay to the said author or proprietor all damages occasioned by such injury, to be recovered by a special action on the case founded upon this act, in any court having cognizance thereof.

SECT. 7. And be it further enacted, That any person or persons shall be sued or prosecuted for any matter, act, or thing done under or by virtue of this act, he or they may plead the general issue, and give the special matter in evidence.

An ACT to promote the Progress of useful Anis; and to refleat the Act

heretofore made for that purpose. Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That when any person or persons being a citizen or citizens of the United States, shall alledge that he or they have invented any new and useful art, machine, manufacture, or composition or matter, or any new and useful improvement on any art, machine, manufacture or composition of matter, not known or used before the application, and shall present a petition to the Secretary of State, signifying a desire of obtaining an exclusive property in the same, and praying that a patent may be granted therefor, it shall and may be lawful for the said Secretary of State, to cause letters patent to be made ou tin the name of the United States, bearing test by the President of the United States, reciting the allegations and suggestions of the said petition, and giving a short description of the said invention or discovery, and thereupon granting to such petitioner or petitioners, his, her or their heirs, administrators or assigns, for a term not exceeding fourteen years, the full and exclusive right and liberty of making, constructing, using and vending to others to be used, the said invention or discovery, which letters patent shall be delivered to the Attorney General of the United States, to be examined; who, within fifteen days after such delivery, if he finds the same conformable to this act, shall certify accordingly at the first thereof and nature the same table for act, shall certify accordingly at the foot thereof, and return the same to the Secretary of State, who shall present the letters Patent thus certified, to be signed, and shall cause the seal of the United States to be thereto affixed, and the same shall be good and available to the grantee or grantees, by force of this act, and shall be recorded in a book, to be kept for that purpose, in the office of the

Secretary of State, and delivered to the patentee, or his order.

Secr. 2. Provided always, and be it further enacted, That any person, who shall have discovered an improvement in the principle of any machine, or in the process of any composition of matter, which shall have been patented, and shall have obtained a patent for such improvement, he shall not be at liberty to make, use or vend the original discovery, nor shall the first inventor be at liberty to use the improvement: and it is hereby enacted and declared, that simply changing the form or proportions of any machine, or composition of matter, in any

degree, shall not be deemed a discovery.

Secr. 3. And be it further enacted, That every inventor, before he can receive a patent, shall swear or affirm, that he does verily believe, that he is the true inventor or discoverer of the art, machine, or improvement, for which he solicits a patent, which oath or affirmation may be made before any person authorized to administer oaths, and shall deliver a written description of his invention, and of the manner of using, or process of compounding the same, in such full, clear and exact terms, as to distinguish the same from all other things before known, and to enable any person skilled in the art or science, of which it is a househ as with a large of the same and a second with the same and a second with the same and the same are same as well as the same are same as the same are same as the same are same as well as the same are same as the sa is a branch, or with which it is most nearly connected, to make, compound, and use the same. And in the case of any machine, he shall fully explain the principle, and the several modes, in which he has contemplated the application of that principle or character, by which it may be distinguished from other inventions; and he shall accompany the whole with drawings and written references where the nature of the case admits of drawings, or with specimens of the ingredients, and of the composition of matter, sufficient in quantity for the purpose of experiment, where the invention is of a composition of matter; which discriptions signed by himself, and attested by two witnesses, shall be filed in the office of the Secretary of State, and certified copies thereof shall be competent evidence, in all courts, where any matter or thing, touching such patentright, shall come in question. And such inventor shall moreover, deliver a model of his machine, provided the Secretary shall deem such model to be necessary.

Secr. 4. And he it further enacted, That it shall be lawful for any inventor, his executor or administrator, to assign the title and interest in the said invention, at any time, and the assignee having recor ed the said assignment, in the office of the Secretary of State, shall thereafter stand in the place of the original inventor, both as to right and responsibility, and so the assignees or

assigns, to any degree.

Secr. 5. And be it further enacted, That if any person shall make, devise and

use, or sell the thing so invented, the exclusive right of which shall as aforesaid, have been secured to any person by patent, without the consent of the patentee, his executors, administrators or assigns, first obtained in writing, every person, so offending, shall forfeit to pay the patentee, a sum that shall be at least equal to three times the price, for which the patentee has usually sold or licenced to other persons, the use of the said invention; which may be recovered in an action on the case founded on this act, in the circuit court of the United States,

or any other court having competent jurisdiction.

SECT. 6. Provided always and be it further enacted, That the defendant in such action shall be permitted to plead the general issue, and give this act and any special matter, of which notice in writing may have been given to the plaintiff or his attorney, thirty days before trial, in evidence, tending to prove, that the specification filed by the plaintiff, does not contain the whole truth relative to his discovery, or that it contains more than is necessary to produce the described effect, which concealment or addition shall fully appear to have been made, for the purpose of deceiving the public, or that the thing, thus secured by patent was not originally discovered by the patentee, but had been in use, or had been described in some public work, anterior to the supposed discovery of the patentee, or that he had surreptitiously obtained a patent for the discovery of another

with costs, and the patent shall be declared void.

Sect. 7. And be it further enacted, That where any state before its adoption of the present form of government, shall have granted an exclusive right to any invention, the party claiming that right, shall not be capable of obtaining an exclusive right under this act, but on relinquishing his right under such particu-

person: in either of which cases, judgment shall be rendered for the defendant,

lar state, and of such relinquishment, his obtaining an exclusive right under this act shall be sufficient evidence.

Seer. S. And be it further enacted, That the persons, whose applications for patents, were, at the time passing of this act, depending before the Secretary of State, Secretary at War, and Attorney General, according to the act, passed the second session of the first Congress, intitled, "An act to promote the progress of useful arts," on complying with the conditions of this act, and paying the fees herein required, may pursue their respective claims to a patent under the same.

SECT. 9. And be it further enacted, That in case of interfering applications the same shall be submitted to the arbitration of three persons, one of whom shall be chosen by each of the applicants, and the third-person shall be appointed by the Secretary of State,; and the desision or award of such arbitrators, delivered to the Secretary of State, in writing and subscribed by them, or any two of them shall be final, as far as respects the granting of the patent: And if either of the applicants shall refuse or fail to choose an arbitrator, the patent shall issue to the opposite party. And where there shall be more than two interfering applications, and the parties applying shall not all unite in appointing three arbitrators, it shall be in the power of the Secretary of State to appoint three

arbitrators for the purpose.

SECT. 10. And be it further enacted, That upon oath or affirmation being made, before the judge of the district court, where the patentee, his executors, administrators or his assigns reside, that any patent which shall be issued in pursuance of this act, was obtained surreptitiously, or upon false suggestion, and motion made to the said court, within three years after issuing the said patent, but not afterwards, it shall and may be lawful for the judge of the said district court, if the matter alledged shall appear to him to be sufficient, to grant a rule, that the patentee, or his executor, administrator or assign, shew cause why process should not issue against him to repeal such patent. And if sufficient cause shall not be shown to the contrary, the rule shall be made absolute, and thereupon the said judge shall order process to be issued against such patentee, or his executors, administrators or assigns, with costs of suit. And in case, no sufficient cause shall be shown to the contrary, or if it shall appear, that the patentee was not the true inventor or discoverer, judgment shall be rendered by such court for repeal of such patent; and if the party, at whose complaint the process issued, shall have judgment given against him, he shall pay all such costs, as the defendant shall be put to, in defending the suit, to be taxed by the court, and recovered in due course of law.

SECT. 11. And be it further enacted, That every inventor, before he presents his petition to the Secretary of State, signifying his desire of obtaining a patent, shall pay into the Treasury thirty dollars, for which he shall take duplicate receipts; one of which receipts he shall deliver to the Secretary of State, when he presents his petition: and the money, thus paid, shall be in full for the sundry services, to be performed in the office of the Secretary of State, consequent on such petition, and shall pass to the account of clerk-hire in that office. Provided nevertheless, That for every copy which may be required at the said office, of any paper respecting any patent, that has been granted, the person obtaining such copy, shall pay at the rate of twenty cents, for every copy-sheet of one hundred words, and for every copy of a drawing, the party obtaining the same, shall pay two dollars: of which payments, an account shall be rendered, annually to the treasury of the United States, and they shall also pass to the account of clerk-hire in the office of the Secretary of State.

SECT. 12. And be it further enucted, That the act passed the tenth day of April, in the year one thousand seven hundred and ninety, intitled, "An act to promote the progress of useful arts," be, and the same is hereby repealed. Provided always, That nothing, contained in this act, shall be construed to invalidate any patent, that may have been granted under the authority of said act; and all patentees under said act, their executors, administrators or assigns, shall be considered within the purview of this act, in respect of the violation of their rights, Provided, such violations shall be committed, after the passing of this act.

veries and inventions, to certain persons therein mentioned, and to enlarge and define the penalties for violating the rights of Patentees.

Sect. 1. Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That all and singular the rights and privileges given, intended or provided to citizens of the United States, respecting Patents for new inventions, discoveries, and improvements, by the act, intituled "An act to promote the progress of useful arts, and to repeal the act heretofore made for that purpose," shall be, and hereby are extended and given to all aliens, who at the time of petitioning in the manner prescribed by the said act, shall have resided for two years within the United States, which privileges shall be obtained, used, and enjoyed, by such persons, in as full and ample manner, and under the same conditions, limitations, and restrictions, as by the said act is provided and directed in case of citizens of the United States. Provided always, That every person petitioning for a Patent for any invention, art or discovery, pursuant to this act, shall make oath or affirmation before some person duly authorized to administer oaths, before such Patent can be granted, that such invention, art or discovery hath not, to the best of his or her knowledge or belief, been known or used either in this or any foreign country; and that every Patent which shall be obtained pursuant to this act, for any invention, art or discovery, which it shall afterwards appear had been known or used previous to such application for a Patent, shall be utterly void.

SECT. 2. And be it further enacted, That where any person hath made, or shall have made, any new invention, discovery or improvement, on account of which a Patent might, by virtue of this or the abovementioned act, be granted to such person, and shall die before any Patent shall be granted therefor, the right of applying for and obtaining such Patent, shall devolve on the legal representatives, of such person in trust for the heirs at law of the deceased, in case he shall have died intestate; but if otherwise, then in trust for his devisees, in as full and ample manner, and under, the same conditions, limitations and restrictions, as the same was held or might have been claimed or enjoyed by such person, in his

or her life time; and when application for a Patent shall be made by such legal representatives, the oath or affirmation provided in the third section of the be

forementioned act, shall be so varied as to be applicable to them.

SECT. 3. And be it further enacted, That where any Patent shall be, or shall have been granted pursuant to this or the abovementioned act, and any person without the consent of the Patentee, his or her executors, administrators or assigns first obtained in writing, shall make, devise, use, or sell the thing whereof the exclusive right is secured to the said Patentee by such Patent, such person so offending shall forfeit and pay to the said Patentee, his executors, administrators or assigns, a sum equal to three times the actual damage sustained by such Patentee, his executors, administrators, or assigns, from or by reason of such offence, which sum shall and may be recovered, by action on the case founded on this and the abovementioned act, in the circuit court of the United States, having jurisdiction thereof.

Secr. 4. And be it further enacted, That the fifth section of the abovementioned act, intituled "An act to promote the progress of useful arts, and to repeal the act heretofore made for that purpose," shall be and hereby is repealed.

THEODORE SEDGWICK,
Speaker of the House of Representatives.
